1ST November 2017

Dear Valued Customer

RE: Allfix Fasteners Price Rise Notification - Effective 1st December 2017

Due to price increases from the majority of our Supplier's, a follow on effect of the volatility of raw material costs, with significant steel and galvanising increases, we have had to review our existing pricing structure. With this in mind it has become necessary to implement the following.

Effective 1st December 2017, a 6% - 10% price increase will be applied across all product lines. Please note that any Special Net Pricing you may have negotiated will also be subject to this increase. We will be working hard with our Suppliers to minimise the price rise where possible.

We sincerely value your business and remain committed to providing you with great service, quality brand names at competitive prices and trust that you understand the reasons to necessitate this increase.

As an Australian owned and operated Company, Allfix Fasteners thank you for your understanding and ongoing support, we stand by our motto of "Great Service, Quality Products all at the Right Price".

Should you have any questions with respect to this price increase, please don't hesitate to contact either myself, your Sales Representative or your local branch.

All price rise notification letters will be posted on our website.

Kind Regards

A handwritten signature in black ink that reads "Michael Dann".
